DETAILED ACTION

Election/Restriction

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figures 1-10, 14A, 16A, 16B.

Species II: Figures 11 and 12.

Species III: Figure 13.

Species IV: Figure 14B-14E and 15C.

Species V: Figure 14F.

Species VI: Figures 15A and 15B.

Species VII: Figure 16C.

Species VIII: Figure 16D.

Applicants are required under 35 U.S.C. 121 to elect a single disclosed species that is usable with a type of a holder for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 52 and 55 are considered to be generic.

Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3634

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicants traverse on the ground that the species are not patentably distinct, applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Sheldon R. Meyer on January 11, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 3634

application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

In general, most response's and/or amendments not requiring a fee, as well as those requiring a fee but charging such fees to a deposit account, can be submitted by facsimile transmission.
